ABSTRACTION

ABSTRACTED THOUGHTS CONTAINING DIFFERENT CONTENTS

ARGUMENTS

- CONCERNING AMBIGUITY OF KINDS
- STROKES
 - INDEFINITE AND ABSTRACT MEASURES
 - LEVELS OF ABSTRACT CONFIGURATIONS
 - TRANSCENDENTAL DIFFERENCES
 - ARROW
 - Differences in strokes as observed or perceived or sensed
 - ABSOLUTE and Common differences. III.
 - differences relative to action considering THE END. IV.
 - differences relative to action considering THE MEANS. V.
 - MODES. VI.
 - subject
 - object
 - Qualitative differences
 - largely quality
 - strictly quality

[Mind](#) during abstraction disregards the difference between natural and Artificial because they both share the same structure or shape and there is no way for the [mind](#) to tell the difference between them.

communication

- CONVERSATION OR MENTAL CHATS

belief

- [belief OR MENTAL FACTS](#)

schema

information

Data is a collection of facts, while information puts those facts into context. While data is raw and unorganized, information is organized. [language](#)

knowledge

- [knowledge or mental Book](#)
- The natural order of space and [time](#) continuum in relation to all the entities of universe
 - Simple arrangements
 - based on the manner in which it is mixed
 - homogenous , regular
 - heterogenous , alternate
 - based on complexity
 - simple
 - compound
 - based on same or different contents arranged in [an](#) order Or sequence which is in
 - series , row , syntax
 - parallel , list , Column , ladder
 - layers , stratum
 - a peculiar type of arrangement in which objects are in ascending order or descending order
 - [stairs](#) , levels , rank
