BRANCH

3

BRANCH

- Branches of mathematics, subdisciplines within mathematics
- Branch (algebraic geometry), a smooth arc of a real algebraic curve
- Branch (graph theory), a [path](#) of degree-two vertices ending in vertices of degree unequal to two
 - Branch-decomposition, a hierarchical clustering of the edges of a graph, and branchwidth, a graph parameter defined from these decompositions
- Branch (mathematical analysis), a single value of a multi-valued complex function
 - Branch point, of a multi-valued function, a point where all neighborhoods are multi-valued
 - Branched covering, a generalization of multi-valued functions in topology and algebraic geometry
- Branch (set theory), a maximal totally ordered subset of a [tree](#)-ordered set
- Branch (academia), [an](#) academic sub-discipline
- Branch (bridle), a crooked piece of iron in a bit shank
- Branch (computer science), a point in a computer program where program-flow may change depending on a condition
- Branch (hieroglyph), a member of the trees and plants hieroglyphs
- प्ररोहः , शाखा , डाल , डांगाली , प्रलम्ब , विशाख , द्विशाख , पादशाखा , प्रतिनाडी (branchvein) , शाखारथ्या (branch road) , शाखानगर (branch town) , प्रशाखिका (smallbranch) ,
- शाला (large branch) , उपशाखा , दृढ (root of branch) , शाखाबाहु branch-likearm) , वृक्षशाखा , विद्यास्थान (branch of knowledge) , दीर्घशाख , सूक्ष्मशाख , शतवल्श
- कटाध्यापक (teacheroftheabovebranch) , शाखास्थ , किसलय (extremity of a branch bearing new leaves)
- प्रधानाङ्ग , विद्यावंश (list of teachers) , गण्डि ([trunk](#))
