VERBS 3

VERBS

Though many ideograms have **been** provided but there is no necessity whether u should use these auxiliary **verbs** while indicating tenses but in some conditions when they are required they can **be** used.

All the tenses have a unique **ideogram** to indicate their aspect whether it is progressive or perfect. These auxiliary **verbs** are used to differentiate between the **time** also , which is solved by a **time** indicator whether it is past , present or future tense.
