MATHESIS UNIVERSALIS

Mathematics is [an](#) ideographic [language](#) which uses the symbols to define the real [life](#) problems and situations.

In terms of Geometry , mathematics is more of [an](#) art than science which deals with the shape and sizes of objects but in [an](#) abstract and very precise manner. But to study something u need a [language](#) , so mathematics is the [language](#) of signs.

- [LOGIC](#)
- [NUMBERS](#)
- [MEASURE](#)

Mathematical [language](#) is quite complex but brief [language](#) which can reduce a large amount of sentences in to just a simple equation.

Some of the ideographic sentences we use in physics , chemistry and mathematics in our day to day [life](#).

- Situations in our universe expressed
 - in terms of [equations](#)
 - more general
 - Terms of particles or numbers
 - mathematical or mental
 - Hypothetical thinking
 - Probability
 - hypothetical [action](#)
 - function
 - Hypothetical motion
 - quadratic equations
 - addition
 - multiplication
 - division
 - simple equation
 - Ratio
 - rate
 - substraction
 - physical situations
 - [list of physics equations](#)
 - more abstract
 - direction
 - [list of relativistic equations](#)
 - vector
 - motion
 - kinematics
 - Elemental or waves
 - [list of equations in wave theory](#)
 - [light](#)
 - [light](#)
 - [list of optics equations](#)

- [Sound](#)
 - [Sound waves](#)
- heat
 - thermodynamic
 - [list of thermodynamic equations](#)
- magnetic
 - [List of electromagnetism equations](#)
 - gravitational
 - [list of equations in gravitation](#)
- [electricity](#)
- liquid
 - [list of equations in fluid mechanics](#)
- gas
- solid
 - classical mechanics
 - [list of equations in classical mechanics](#)
- chemical or molecular
 - [list of equations in quantum mechanics](#)
 - [list of equations in nuclear and particle physics](#)

MATHEMATICAL SYMBOLS

Mental Mathematics

- [mental maths](#)

Basic math symbol

- [MATHEMATICS](#)

Geometry symbols

- [GEOMETRY](#)

Algebra symbols

- [ALGEBRA](#)

Probability and statistics symbols

- [PROBABILITY AND STATISTICS](#)

Combinatorics Symbols

- [ARS COMBINATORIA](#)

set theory symbols

- [SET THEORY SYMBOLS](#)

logic symbols

- [LOGIC](#)

calculus and analysis symbols

- [CALCULUS AND ANALYSIS](#)
