MENTAL ELEMENTS 3

MENTAL ELEMENTS

Anything that has the property to flow is considered as fluid . So thoughts have [an](#) ability to flow inside our [mind](#) hence it comes under the category of fluid. Since the liquid and gases assume the shape in which they go , our mental thoughts also have the capability to assume the shape of any [object](#).

- Mental fluidity (compared to liquids and gases)
- Mental Strength (compared to solid)
- Mental Speed (compared to [air](#))

Mental Particles are the Hypothetical smallest coded particles present inside [mind](#) which are related to the materialistic world. These coded particles temporarily acts as a reference to every quality and quantity of the materialistic world. When some one finds a similar quality or quantity our [brain](#) gets excited to change or add the information to our existing knowledge.
