## NATURE

Nature is **an** inherent character or constitution,[1] particularly of the ecosphere or the universe as a whole. In this general sense nature refers to the laws, elements and phenomena of the physical world, including **life**. Although humans are part of nature, **human activity** or humans as a whole are often described as at times at odds, or outright separate and even superior to nature.

- **nature**
- **naturality**
- **Natural verse**
- **natural elements**
- **natural reality**
- **natural hyper domain**
