REPRESENTATIONAL DIFFERENCES

- The first and foremost concept by which the representational understanding takes [place](#)
 - fundamental constructs
 - Fundamental sounds
- The hypothetical constructs and their associations
 - [HYPOTHETICAL LANGUAGE](#)
 - [Alphabet](#) of [human](#) thought
 - [Hypothetical constructs](#)
- Representations being the type
 - [Formal systems](#)
 - [Cognitive systems](#)

The object: The symbol being represented.

Manner: The way the symbol is represented.

Means: The material that is used to represent it.

- Representations of virtual essence formed whether
 - Representations formed by the modes being
 - [virtuality](#) , Virtual mode , [Virtual Reality](#)
 - sensory representations , [vision](#) APPARENCE, Apparition, Phantasm, Shew, Vision, Elusion and vanish.
 - expressive representations , written representations , paper representations
- those representations which combine both idea and reality
 - logogram , semantograms
- Differences in representation whether
 - view of representation
 - Indirect representation , cognitive representation , Perspective , indirect realism
 - MONADIC
 - AGGLOMERATIVE
 - NOMIC REFERENCES , LINGUISTIC REFERENCES
 - ABSTRACT REFERENCES , VIRTUAL REFERENCES
- Similarities of representations
 - functional similarity , analogical representations
 - structural similarity , homologous representations
 - [body](#) plan
- differences in representation of dimensions
 - 2D TO 2D , representation of a 2d [object](#) or being in a 2d manner
 - 3D TO 2D , representation of a 3d being or [object](#) in a 2d manner
 - 4D TO 2D , representations of actions and [time](#) in a 2d manner
- Essence of representation being
 - [cognitivity or knowledge](#) , , cognitive representation
