STIMULUS

3

STIMULUS

It indicates the party/entity/idea/thought/situation or mental state which triggers **an** unwilling, affective response or is the trigger for **an** existential states with no tangibly affected patient, e.g., The **hammer** exemplifies toolship, The man possesses a cat, That **book** contains poems.. Its semantic role is that of STIMULUS.

- Stimulus
 - entity that prompts sensory or emotional feeling – not deliberately (e.g. David loves onions!).
