PAGE THEMES

General Theme (Universal)

- Main Heading (Page [name](#))
 - Disambiguation (If there are any confusing terms or clashing terminology)
- Introduction
- History
- Types or Description
- See also
- Notes
- References and Bibliography
- Sources
- Further Reading
- External Links
- Related Topics or articles

Medical Themes

Pathology

- Disease [Name](#)
- Etiology or cause
- Features
 - Gross pathological Features
 - Histopathological features
- Clinical Signs and symptoms
 - Signs
 - Symptoms
- Investigation and Diagnosis
- Treatment and Management
 - Pharmacological management
 - Surgical Management
 - Therapeutical Management

Disease Name	Name Morphology	Synonyms	Etiology	Gross features	Microscopic features	Signs	Symptoms	Investigations	Management
------------------------------	---------------------------------	----------	----------	----------------	----------------------	-------	----------	----------------	------------

Pharmacology

- Drug [Name](#)
 - Drug class and Drug source
- Mechanism of [action](#)
 - Pharmacokinetics
 - Route of Administration
 - Pharmacodynamics

- Drug Interactions
- Side Effects
- Therapeutic Uses

Microbiology

- Microbe [name](#)
 - Microbial class
- Microbial mechanism of [action](#) or pathogenesis
 - Microbial structure
 - Toxins
- Microbial investigation and laboratory diagnosis
- Treatment and Management
